

WIRE ROPE SHEAVES & SLINGS

Furnished with standard bores and deep grooves for wire rope blocks.

Plain Bore or Self-Lubricating Bronze Bushed.

Approximate Width Dimensions for Small Sheaves Below.

If ordering Plain Bore Sheave
Can add Bushing
To Reduce Size

If you don't find the bore you want, use Bronze Bushings to reduce Bore Size, or to increase Bore Size. Reduce bore size shown by 1/8" or 1/4" or 3/8" by adding the bronze bushing shown. Increase bore size shown by 1/8" or 1/4" by removing the existing bronze bushing in the bronze bushed sheaves and switching to the bronze bushing shown. You can run 1/8" smaller wire rope than suggested in any sheave.

WIRE ROPE SHEAVES

Plain Bore or Self-Lubricating Bronze Bushed.

* 1/2" ID Bronze Bushing has 3/4" O.D

** None means to take bushing out and use plain bore.
